

INTRODUCING THE NEW  
**MODEL VR-6R**

**Reverse Counterweight Resistance Barrier Designed for**  
***Limited Installation Spaces***  
***Narrow Sidewalks***

KEY FEATURES:

- **Reduces Footprint of Operating Unit to Absolute Minimum**
- **Securely Anchors Base of Arm and Resistance Cables**

The VR-6R was designed to meet the needs of tight installation spaces where a traditional design barrier would encroach on sidewalk space or even extend into the roadway. Call for details.
